MRBM LAUNCH AREA, RAKVERE, USSR

25X1D

An MRBM launch area has been identified on [REDACTED] photography in a wooded area at 59-08-20N 26-26-30E, approximately 12.8 nautical miles south of Rakvere, USSR (Figure 1). This area is an offset-inline type (similar to the Voru launch areas), with four pads and three missile-ready buildings visible through scattered clouds. A portion of the support facilities is also observed. A new road serves this area from the north in the direction of Rakvere. Cloud cover prohibits determination of the road's point of origin or the presence of additional launch areas or supporting facilities.
